Subject: say no to Virginia City Power Plant

I live in Wise County Virginia only 13 unlucky air miles from the proposed plant. If the plant is built my breathing complications will force me to move out of the region for my health, an alternative I do not want to happen. All of the numbers showing the harmful byproducts of this plant are in your hands, so I will not repeat them. Instead, I will ask you to deny the permits for this major polluter at a time when our air quality is already at the threshold of disaster.
Thank You

Sincerely,

Kenny Owens
